

Thank You!

Advanced Data Solutions, LLC
2605 Hoover Ave., Suite F&G, National City, CA 91950

Dear Advanced Data Solutions,

This note is to thank you for recovering my lost data. When I looked at my drive and saw that my data was gone, I thought it was gone forever. Thinking of all the work I had put into it, I wondered how I could have let it go unbacked up for so long.

When I called the company that made the software that led to my data loss, they could not help me. Their top tech support gave me your number and I have been relieved ever since. Your staff has been friendly, helpful, and supportive. Amazingly, you use techniques that the top software companies do not know! Thank you for being pioneers and thank you for getting my art back!!

Dante DiProsa,
President NewMedia Design
