To Whom It May Concern:

I just wanted to write and tell you how pleased I am with your organization. I had just purchased a new laptop and within two weeks it crashed. All my information was lost forever!

I did some checking and stumbled across your company. After sending in my hard drive and an evaluation was done within one week my data was completely recovered. I had over 800 files. To my knowledge, they were all retrieved. I cannot tell you how much time and anguish you have saved me.

The amount of money I spent to retrieve the data was well worth it. Again, thanks to each and every person in your company for a job well done.

Sincerely,

A handwritten signature in black ink, appearing to read 'Mark Reynolds'.

Mark Reynolds
Business Development Manager
