Dear Ms. Martin:

I just wanted to take a moment to thank you and your organization for your quick response to our predicament. As you know, while I was in the process of attempting to repair our CD-RW backup on our maintenance department computer, our hard disk failed and we lost all of our maintenance history, workorder requests, etc.. (10s of 1,000s of records). Because the CD-RW had not been working for an extended period of time we had no current backups of the maintenance database.

As a result of your work we were able to recover all of our data, including files and programs that were of less importance and that we had not even requested you recover. Our maintenance department is back on track and none the worse for wear due to your quick response.

Once again, thanks for all your help.

Sincerely,

Edward A. Thomson
Chief Financial Officer
