Advanced Data Solutions  
2605 Hoover Avenue  
Suite F  
National City, CA 91950

This is a thank you for the wonderful job that you did for us. You were able to recover all of the data, more than a month of graphics files. Included in those files was artwork that could not be duplicated and client supplied information. You helped us "save face." We would have had to ask some of our clients to resend the information. Thanks to you, we still look good.

If the problem ever arises again, there will be no question as to whom we will call,  
*Advanced Data Solution!*

Thanks again,

Danette Landy
