Dear ADS:

We must thank you immensely for the expedient work that you have done in recovering our lost files. As you may know, another disc recovery company was unable to recover our files from our hard drive when our network crashed. We thought that there was no hope. You have restored our hope, our files, and many hundreds of hours of manpower it would take to restore the lost information. We cannot begin to tell you what your company has done for us. Thank you again, and although we hope we never need to use your company again, we will highly recommend your company to anyone and everyone who needs similar help.

Very truly yours,
